SESSION 4 – Thursdays, June 22, 29, and July 6 (Outdoor and Team Classes)

We are looking at tentative sights to train outdoors for a few weeks. These sights will not be enclosed, so handlers will need to determine whether they can work off lead with their dogs.

We will also be having a TEAM Class. This class will be for Teams to practice or for handlers to find team members and practice for a few weeks. It's being held early enough before the September trial so that newly formed teams could enter.
